The principal problems of the **Adult Industry**

The adult industry is a big business generating more than 150 billion dollars revenue annually worldwide. Despite its vast popularity, the porn industry and its performers have issues as illustrated below:

The adult performers are censored from major social media platforms like Facebook, Tiktok, Instagram. The big social media platforms ban adult content, and so the Adult performers and the adult industry are suffering big losses.

The professional and amateur performers are at the mercy of the big adult film production companies who are charging consumers high fees but they pay back the performers very cheap.

Performers don't get fair compensation for their work and don't earn anything in royalties from distribution and sales.

Adult creators and performers are always denied copyright to their work.

The AdultClubCam Solution

At AdultClubCam we want to give the adult industry performers the possibilities to have fair compensation and full royalties for their work!

We can resolve all the important issues of the adult industry with our decentralized ecosystem and its unique utility \$ADULT token. We are different because unlike the existing adult market where adult production companies and producers control the types of content and the income that adult actors and performers make, our platform puts the adult performers in total control of their production, distribution, and revenues by connecting them directly with their consumers. Creators will not be censored on the AdultClubCam platform.

They can effectively promote themselves and a cutting-edge payment solution for the adult industry and other marketing gigs through shout out management done within the platform.

We are offering a revolutionary and a cutting-edge payment solution for the adult industry.

AdultClubCam provides content creators with the ability to promote their work and grow their community of fans via our management from inside the platform with affiliate programs to attract fans and traffic from other external sources.

We want to end the exploration of the big adult industries that are making big profits from performers!

Each adult NFT listed on our marketplace will give the creator the copyright for their adult content, and so the creator and also the performers will receive royalties for every sale and every usage of the content.

Adult Industry

The AdultClubCam Solution

The creator is provided with more autonomy as they can directly sell/mint/repurpose their content.

A big problem in the adult industry is also that the majority of payment solutions companies ban the payments for this industry, and that is why the alternative providers use this weakness to charge huge fees for transactions within the industry.

Our \$ADULT token is the solution to eradicate this problem because we do not have any gas fees executing the transactions. AdultClubCam will protect your work with copyright and with \$ADULT token you will have the best payment solution on the market! Worldwide audiences can discover creators and exchange their local currency for \$ADULT token. Creators will have the opportunity through our platform AdultClubCam to create their exclusive fan club and to interact live with their worldwide fans.
